### DIRECTOR, ROTARY INTERNATIONAL

Jessie Harman is a Director on the Board of Rotary International. She is a member of the Rotary Club of Wendouree Breakfast in Ballarat, Australia and a past Governor of District 9780.

Jessie's special interest in Rotary is membership development. She is a past Chair of the Rotary International Membership Committee and was previously a Rotary Co-ordinator for Australia, New Zealand and the Pacific Islands. Jessie was also a Training Leader and Seminar Trainer at Rotary's International Assembly in San Diego. She and her husband Andrew (also a Rotarian) are keen supporters of the Rotary Foundation as major donors and bequest society members.

Jessie's first experience of Rotary was as a participant of RYLA in 1988, sponsored by the Rotary Club of Kings Meadows in Tasmania.

Jessie holds three earned degrees, including a Masters' Degree in Business Administration and a Doctorate in Social Entrepreneurship. In her professional life, she spent two decades in senior management roles in Higher Education, finishing as Pro Vice-Chancellor (International and Partnerships). She now works as a consultant and non-executive director on a number of boards in the education and community sectors in Australia.

Outside Rotary and work, Jessie is a keen long distance walker. She has completed numerous hikes, including the 800 kilometre Camino de Santiago in 2018.

At home, Jessie is mum to three adult children, Claire, Georgia and James.

## PRESIDENT'S MESSAGE

### Lolo mode

Most of you will find it relatable when I say that *apos* (grandkids) give us *lolos* (granddads) so much joy.

With my children all grown up, I can no longer dote on them as much as when they were kids. Instead, I turn to my *apos* to give a lot of my love and attention to, while adoring their unli dose of cuteness, what with their giggles being simply the best music for my soul. They can never have enough of their Yowyow, and I can never have enough of them. I'm lucky to have seven *apos* and maybe even more in the future.

Outside my blood relations, at DDB, the average age of employees is 23 years old and being surrounded by youthful people revitalizes and makes me feel young as well. They're the ones who arranged for an outreach activity with school kids on my birth month of September.

I especially remember my 60th birthday celebration five years ago, when I spent a half day with students from Sentro Kalinga - Upper Bicutan Special Education (SPED) Center, Bagumbayan Elementary SPED, and two nearby daycare centers. We organized a Jollibee kiddie party for 300

Me and my seven apos.

students where they enjoyed their favorite meals, as well as brought home story books and other goodies.

Five years hence, as part of my yearly 65th birthday celebration, DDB Cares was able to organize another special birthday school visit this time with the Rotary Club of Makati West.

We made a visit to one of the schools in RCMW's Rotary Community Corps in Barangay Pio del Pilar in Makati City - the Makati Special Education (SPED) Center.

It is our first time at the Makati SPED Center, as we usually do our outreach activity in Taguig City where the DDB office is located.

We brought children's books and held a storytelling session with the kids as part of the school's "Brigada Pagbasa" project. We also put up mini-food carts so everyone can enjoy snacks of hotdogs, popcorn, and ice cream. After the program, we handed the kids their favorite Jollibee meals and goodies.

But the best part of the visit was that we were regaled by song and dance performances from the students. One kid even serenaded us with a song that really melted our hearts. They are so cute and talented.

I was really very happy seeing all the kids in their special numbers and while enjoying the storytelling session. Their smiles are priceless. I'm really thankful for this opportunity to celebrate my birthday week with them. And I mean what I said in my speech that's it's one of my best birthday celebrations ever.

The Makati SPED Center is not a regular school, but as Principal Welbert Borlado said in his speech during the program, the local government created the center to provide inclusive education for all, including those with special needs. I have only admiration for the SPED teachers and staff for their dedication to be with these kids who require special attention. Kudos and may God bless you all!

Because the visit was so much fun for everyone, I promised to come back to the school in December this time to hold a Christmas party with the kids. Hope you can join us, mga kuyas and fellow Rotarians.

Storytelling session with the kids at the Makati SPED Center.

The students regaled us with song and dance numbers.

We handed GOL certificates to First Lady Liza Marcos for their sponsorship of GOL beneficiaries.

## RCMW Courtesy visit

Come to think of it, our flagship program Gift of Life also has children as beneficiaries, which makes the program truly special.

And speaking of Gift of Life, last Thursday, we made a courtesy visit to First Lady Liza Marcos to personally hand to her the Gift of Life certificates for her and President Bongbong Marcos's donations to the program for the PDA Device Closure procedures on four GOL beneficiaries.

Our heartfelt thanks to President Marcos and the First Lady.

And since I started this article on Lolo mode, let me also tell you that one of the speakers lined up next month, Fiona Sandoval, a

licensed psychologist, who is also a former DDB employee, will talk to us about what we as grandfathers can do for our grandkids to ensure their mental wellness. After all, even kids suffer from anxiety and depression. It's one talk to look forward to.

So far, it has been a September to remember for me. But there's one more week left to this month, so I look forward to more meaningful activities for us.

That's it for me. Keep safe!

Maraming salamat po.

## FORETHOUGHT

### CLEAR THINKING

On my morning walk earlier in the week, I was listening to a podcast between retired US and Australian military leaders – Jim and Angus – it raised the issue of clear thinking or critical thinking, as its now called. In parallel, the topic came up in a feed, asking the question why clear thinking is not taught in schools anymore.

I do think in this short-term world, leaders (me included) have misplaced the ability to reason through confronting business issues, taking time to evaluate a topic from all sides.

We all tend to jump to the first or easiest conclusion, whatever the evidence. Worse - I've certainly been guilty of this over the years - leaders have been known to selectively choose the evidence that supports a long-held belief.

Over past weeks, I've had cause to reflect on various challenges facing our businesses. Always learning, I've experienced what researchers term a lack of metacognition – or thinking about thinking – being a major contributor to mistakes or oversights, making one overconfident.

Thankfully, critical thinking is a learned skill.

I was reading a piece on this topic. It states three simple ideas (not four this week) to improve your critical thinking skills.

1. Question assumptions.
2. Reason through logic.
3. Diversify thought.

Of course, we could all argue we already do all these things. I'm suggesting consider being more deliberate and dare I say, thinking, in your approach.

On assumptions. Ask yourself when to ask probing questions, when to question long held assumptions, particularly when stakes are high or when emotions are running at elevated levels. My encouragement, go back to basics, perpetually question embedded beliefs. The aim is to get a different perspective.

Beware of over-generalization, making sweeping statements, with insufficient evidence. Which gets us to logic, a practice pioneered by Aristotle over 2,000 years ago. A right brain company, which many are, often do not make the time to get the facts.

A question for us all – is your argument supported by evidence? Does an accumulation of facts help you produce a reasoned conclusion? We all, from time to time, deploy post-hoc thinking – a Latin phrase meaning after this or after the event.

Diversity of thought. Did I mention GroupThink? None of us are immune. Remember, algorithms perpetuate GroupThink, serving up news and information that suits your beliefs, making you more rigid. Research indicates, the more we listen to our digitally enabled social networks, the more polarizing or hardened our views become.

I encourage you seek out one or two contrarians when discussing strategy. Reasoned thinking is always better.

In group strategy sessions, if you are more accustomed to talking, than listening, purposely hold yourself back, wait patiently to hear an opposing view.

## **ABOUT CRAIG LONNIE**

Lonnie is the Chief Development Officer at DDB Group Philippines, where he provides strategic and operational counsel to clients and DDB's senior leadership. He also leads The Bernbach School, DDB Group Philippines' exclusive learning hub.

He had worked for worldwide marketing communications network DDB for over two decades, gaining vast and varied experience across Asia and the Pacific. Over this time, he held local, regional, and global responsibilities, including co-chief operating officer of regional operations of DDB Asia and chief development officer across 23 offices in 14 countries.
